

Sea Retreat Cottages

Cleaning procedures put in place to help eliminate Covid-19 in holiday cottage

Two Part Cleaning Method – to clean and disinfect cottage

- Initial clean to remove dirt using ordinary domestic cleaning solutions on all surfaces and floors.
- Second clean using Envirosafe EN114476:2013+A2:2019
- This disinfectant stops the spread of virus and bacteria by eliminating the pathogens by 99.999% (Log 5)
- Cleaner trained in Covid-19 cleaning standards
- Cleaning standard tick list in place for transparency of cleaning.
- Cleaning products provided in the cottages
- Private front door entrance accessed by key log-box and key which have been sprayed with virucidal spray.
- Removal of ornaments, toys, extra covers/cushions to eliminate further possible contamination.
- Glasses, plates and cutlery dishwasher washed
- Linen & towels are all sent to a professional laundry for +60 degrees wash.
- Mattress cover, pillow protectors changed after each guest visit and clean linen/ towels supplied.

- Cottage sprayed with virucidal spray
- Cottage left vacant and aired 5-6 hours after cleaning

Covid-19 file will be held in each cottage for guest information.
